The New York Times bestseller a clear and concise account of the history, diplomacy, economics, and societal forces that have molded the modern global system. Foreign Affairs: An invaluable primer from Richard Haass, president of the Council on Foreign Relations, that will help anyone—expert and non-expert alike—navigate a time in which many of our biggest challenges come from the world beyond our borders. Like it or not, we live in a global era in which what happens thousands of miles away has the ability to affect our lives. This time it is a coronavirus known as COVID-19, which originated in a Chinese city many had never heard of but has spread to the corners of the earth. Next time it could well be another infectious disease from somewhere else. Twenty years ago it was a group of terrorists trained in Afghanistan and armed with box cutters who commandeered four airplanes and flew them into buildings and in one case a field, and claimed nearly three thousand lives. Next time it could be terrorists who use a truck bomb or gain access to a weapon of mass destruction. In 2016, hackers in a nondescript office building in Russia traveled virtually in cyberspace to manipulate America's elections. Now they have burrowed into our political life. In recent years, severe
