Master all the animal care duties of a veterinary technician. McCurnin's Clinical Textbook for Veterinary Technicians and Nurses 10th edition provides a solid foundation in every aspect of veterinary technology, including care of small and large animals, birds, reptiles, and small mammals. Procedure boxes offer step-by-step guidelines to performing key tasks, and use of the veterinary technician practice model helps to improve your critical thinking and decision-making skills. Written by vet tech experts Joanna Bassert, Angela Beal, and Oreta Samples, this illustrated guide prepares you for success on the Veterinary Technician National Exam (VTNE) and in clinical practice. 2017 winner of the William Holmes McGuffey Longevity Award, McGuffey from the Text Academic Authors Association (TAA) which recognizes textbooks and learning materials whose excellence has been demonstrated over time. Case presentations provide real-life scenarios so students can practice critical thinking and decision-making skills. Step-by-step instructions show students how to perform dozens of procedures, making information easy to access in emergency and clinical situations. More than 1,000 full-color photographs and line drawings depict veterinary technology concepts and techniques. Chapter outline, learning objectives, and key terms begin each chapter, focusing study on what needs to be known. Material technician notes highlight key points relating to the role of the veterinary technician. Coverage of large animal care is integrated throughout the book, including medical records, dentistry, physical examination, surgical instrumentation, surgical assistance, emergency care, and euthanasia, as well as separate large animal chapters. Comprehensive chapters on pharmacology, pain management, restraint, and veterinary oncology provide a broader understanding of the responsibilities of a technician. Coverage of zoonotics is threaded throughout each chapter, describing how a disease may affect the host, how it is spread, how it is treated, and the necessary safety precautions. Care of birds, reptiles, and small mammals chapter describes care and treatment of these increasingly popular pets. Student workbook reinforces understanding with review questions, case presentations, and clinical applications, as well as photo-based quizzes and other student exercises available separately.

A fundamental text in the field of veterinary technology, McCurnin's Clinical Textbook for Veterinary Technicians, 8th edition, content simplified layout and novel study tools every vet tech needs sections on small and large animals, birds, reptiles, and small mammals embrace every aspect of the veterinary field while case presentations of actual patient situations link information to relevant real-life scenarios.
